My hope is this project and our combined efforts will help to bring more awareness to a subject most find unpleasant and try to avoid. Violence is a problem in our communities, more specifically it is a social issue among our young people and there is a need to reach out and help to make a difference. One report on violence states the 2<sup>nd</sup> leading cause of death among young people ages 14-25 is homicide. Maybe even more alarming is these statistics also state this same age group is the ones committing more than 80% of the violent crimes. This is unacceptable and clearly there's a problem. Something has to be done. It starts with awareness of the problem and then hopefully we can find a way to the solution.

God bless you. I pray peace find's its way to your hearts and your communities.

Living peacefully & loving freely~
